Arise! Shine with LOVE!

Bible Story

The Creation Story, Genesis 1:1-2:9

Our first Bible lesson is from the Old Testament. At the beginning of the Book of Genesis, God started creating everything. First, God created light. God said the light was good. Then, God created so much more: the sky, the land, the sea, mountains, rivers, oceans, trees, plants, flowers, fruit, the sun, the moon, all the stars in the sky—the list goes on and on! God said that all of these things were good. Then God created animals. Birds, mammals, reptiles, insects, dogs, cats, polar bears, puffins, elephants: God created them all and called them all good. But God wasn't done yet. After God had created everything else, God created humans—humans just like you and me! And God called the humans good, and asked the humans to take care of everything else God had created!

Family Follow-Up

Let's think of some ways the love God has for us shows us how to love God's creation.

Signal Verse

**Arise! Shine! Your light has come;
the LORD's glory has shone upon
you! (Isaiah 60:1)**

Today I became an Explorer on Adventure Island and began a quest searching for lanterns of God's light at VBS! Coming next time at VBS, Moses and the Burning Bush! See you there!
